Career Objective

Motivated B.Tech CSE student (5th semester) eager to challenge myself at every step, excel in the field of technology, and secure a reputable position where I can contribute to innovation and continuous growth.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering

ABES ENGINEERING COLLEGE, Ghaziabad

Expected Graduation: 2028 (Currently in 5th Semester)

CGPA: **8.78** (till 4th Sem)

Technical Skills

Programming Languages: C, C++, Python (learning), Java (learning), Web Dev(HTML, CSS & JS)

Other Skills: Problem Solving, Data Structures (Basics), Algorithmic Thinking

Interests: Competitive Coding, Software Development

Projects & Achievements

- **AI Research Agent** : Developed and deployed a customized web application with integrated RESTful APIs for automated research on user-defined topics using Python-based frameworks.

- **Weather Dashboard** : Developed a responsive Weather Dashboard using HTML, CSS, JavaScript, and basic React concepts, integrating real-time APIs to deliver location-based current conditions and 5-day forecasts through a dynamic, visually intuitive, and user-friendly interface.

- Currently working on strengthening coding skills and exploring projects related to software development.

- Actively learning new technologies and programming languages to expand technical expertise.

Extracurricular Activities

- Passionate about technology and committed to self-improvement.

- Interested in contributing to open-source projects in the future.
